6516207228.txt

My boyfriend is a over the road truck driver and he depends on these reports on the road. They are used as a tool not a advertising decoy or anything else for that matter . I also enjoy listening to them here in the home it gives me an idea of what he goin to be goin into. It's also just nice to know what's goin on in other cities across this great country we call home !!! These reports are entertainment to some and tools of the trade to others so let move on already to real issues .

Thanks for you time .
